

No

**Management depends on age and symptoms**

**In all** follow NICE/PHE guideline on lower UTI: antimicrobial prescribing, safety-net and give self-care advice: advise carer to bring the infant or child for reassessment if the infant or child is not improved or worse after 24–48 hours

- Refer to NICE CG54 for other things to consider in suspected UTI in children
- For treatment refer to joint NICE/PHE guidance: NICE guidelines on UTI (lower): antimicrobial prescribing or NICE guidelines on pyelonephritis (acute): antimicrobial prescribing

Key: Urgent alert UTI signs/symptom Action advised Other advice

UTI=urinary tract infection; NICE=National Institute for Health and Care Excellence; PHE=Public Health England; CG=Clinical Guideline
